

Fort Bend County Municipal Utility District No.25 Mobile Phone App Information

Featuring a desktop portal and mobile application for your smartphone. Enjoy the convenience of having information at your fingertips. You will be able to stay alert with outage updates, view your usage, review you billing information and much more. This new web portal is compatible with all web browsers.

[Click Here to Enter the new mywater25 website to review your information.](#)

The mobile version of the My WaterDistrict 25 customer portal is available for download on both Android and iOS devices from the [Apple iTunes Store](#) and [Google Play Store](#).

Many of the features offered on the web portal do not require a user name or password; however, anyone trying to access specific account information will be required to register using their account number, email address and last four digits of the primary account holder's social security number. Watch this informative video to learn how to register your MyWater25 mobile app account.
